- Goal 1: Identify and share best practices for facility planners by exchanging individual college practices, as well as presentations from industry and state agencies.
- Goal 2: Continue publishing CIP State Projects on both the MACC and FPC websites.
- Goal 3: Monitor MACC to keep the FPC better informed, as the two-week notice for vaping regulations was insufficient.
- Goal 4: Restructure meetings and broaden our member base to enhance knowledge sharing by annually reviewing the Facilities Manual, examining the website during meetings, integrating these elements into the meeting structure, and sharing standards and lessons learned from other projects. We will tie these ideas into the agenda and use the meeting location as a physical link by inviting others from the hosting campus for special topics. Key points include:
 - Clarifying Purpose: Reviewing the FPC's original mission and determining its current relevance.
 - Membership and Attendance: Evaluating the success of membership expansion efforts and considering adjustments to increase active participation.
 - Meeting Structure: Discussing the possibility of reducing meeting frequency while ensuring each session is meaningful, potentially returning to a format with two presentations and a fuller agenda.
 - State Agency Reporting: Deciding if monthly state agency reports are necessary and whether written submissions could be sufficient.
 - Leadership Engagement: Reviewing how the FPC engages with leadership (e.g., presidents), ensuring that topics align with their interests and priorities.
